

Supply Chain Manager

(UK and Irish market)

Do you have expertise within maintaining and developing the supply chain of a line of products?

Then this position might give you the challenges you need as you will design, develop and implement product category sourcing and supply management strategies ensuring efficient day-to-day operations between Scalepoint and its supply chain. As the Supply chain manager your criteria of success also lies within communication with customers and suppliers in a professional manner at all times, maintaining the highest level of integrity and seeking to enhance the company's reputation by coordinating with the supply chain experts across the business in Europe, ensuring knowledge transfer from all groups.

We estimate appx. 100 days of traveling per year.

Within the EasyClaim™ product suite for the Irish and UK markets you will be responsible to ensure successful fulfillment of existing contract requirements. As an experienced supply chain manager you will implement the supply chain managerial tools to support the product in the market combined with a strong sense of know-how in the field of supply and demand.

Since 2000 Scalepoint Technologies Ltd. has been a dynamic company with a steady and organic growth related to the highly competent people and a successful product. The team of around 70 employees is vibrant, intelligent, high performance driven and has a great team spirit.

Expectations

- Degree or similar qualification, preferably in a business related subject
- Demonstrated supply chain management expertise, preferably in the general insurance market in the UK (minimum 5 years)
- Project Management Skills
- Proven negotiation and facilitation skills
- Effective communications skills at all levels internally and externally on all contractual and supply chain matters
- Numeracy, accuracy and attention to detail
- Flexibility and demonstrated ability to achieve demanding deadlines
- You are ambitious, well-structured and your strong personality makes the difference
- You are fluent in English - both written and spoken

Joining Scalepoint gives you the possibility of continuous professional and personal development. You will get the opportunity to explore an organization that is driven by professional and ambitious colleagues. Our employees have a broad experience, and more importantly, Scalepoint has the ability of creating talented teams of problem solvers. Scalepoint works closely with our customers and we help them to become the best - at what they do.
